Petition in support of the Callan Park and Broughton Hall Trust and the Callan Park Master Plan

To the Honourable the Speaker and Members of the NSW Legislative Assembly, this petition of certain citizens of NSW notes that:

Like Sydney's Royal Botanic Gardens and Centennial Park, Callan Park is a uniquely valuable site and cultural resource that is intensively used and greatly treasured by the local and wider community. Like those other irreplaceable heritage sites, Callan Park needs to be protected for the future by being well maintained and managed in response to community needs and aspirations as outlined in the Master Plan.

The community, the Friends of Callan Park and Leichhardt Municipal Council have fought for over a decade to reinstate modern mental health services to Callan Park and protect the park's tranquil heritage landscape from overdevelopment. A Master Plan has been developed by the community, which calls for the establishment of the Callan Park and Broughton Hall Trust, with strong local representation.

Your petitioners therefore ask the Legislative Assembly to ensure that the government implements the community's Callan Park Master Plan and establishes the Callan Park & Broughton Hall Trust.
